# WHY THESE PRODUCTS ARE ESSENTIAL TODAY

In today's fast-paced, technology-driven world, educational institutions need more than classrooms and chalkboards to thrive. Our **EdERP, EdLMS, and K-12 Digital Content** solutions empower modern education by:

## Streamline Administration

With ERP, institutions can automate admissions, attendance, fee collection, transport, and more - reducing manual workload and human error

## Enable digital teaching & learning

LMS platforms support blended & remote learning with tools for course creation, quizzes, and performance tracking.

## Provide engaging curriculum content

High-quality animated videos and a vast question bank aligned with CBSE and other boards make learning more interactive and effective.

## Improve Transparency & Communication

Keep parents, students, teachers, and management connected through real-time updates and reporting.

## Stay future-ready

As NEP 2020 and digital education initiatives grow, having smart tech infrastructure is no longer optional - **It's Essential.**

# Solving what Educators struggle with

## All in one place

Running an educational institution often means juggling multiple vendors for ERP, LMS, Content, and Communication — leading to higher costs, poor coordination, and tech chaos.

When you choose us, you get a complete, integrated solution
### All from a Single Trusted Provider

**No compatibility issues**    **No extra training**    **No data silos**

## We offer Administration to Academics with K-12 Animated Library

**ERP**

## Module Overview & Key Features

Designed to do More in Less time

### Enquiry & Front Desk Management

- Enquiry Tracking System
- Automated Follow-up Scheduler
- Visitor Log Management
- Call/Postal record tracker
- Complaint Management
- Student out pass/entry pass

### Admissions Management

- Online Admission Portal
- Admission Printable form
- Admission Report & Analysis
- Individual/Bulk admission processing
- Document verification system
- Gender ratio reports

### Student Information System

- Comprehensive student records
- Student Promotion tool
- Student status management
- Student Performance analysis tool
- TC Generation with template option
- Admit card generation with template

## Attendance Management

- Biometric/RFID Attendance Integration
- Student & Staff Attendance Tracker
- Real-Time Attendance Reports
- Leave Approval/Decline system
- Complaint Management
- Daily/Monthly Attendance reports

## Fees & Payment Management

- Fee structure configuration tool
- Online Payment gateway integration
- Automated fee reminders & receipts
- Defaulter list & Balance fee reports
- Fee collection reports
- Customizable fee statements
- Student performance analysis
- Fee carry forward system

## Class & Timetable Management

- Comprehensive student records
- Student Promotion tool
- Student status management
- Lesson planning
- Syllabus progress tracker
- Academic calendar management

## Inventory Management

- Stock Level Monitoring Tool
- Replenishment Alert System
- Inventory Usage Analytics
- Supply Chain Entry Management
- Item Categorization
- Issue Slip & Sale Tracking

## Transport Management

- Bus Route Planning & Optimization
- GPS-Based Vehicle Tracking
- Driver & Staff Attendance Monitoring
- Delay Notification System
- Vehicle Assignment
- Student Transport Reports

## Income & Expense Management

- Financial Tracking Dashboard
- Budget Planning & Forecasting Tools
- Income/Expense Reports
- Income/Expense Configuration
- Search & Filter Tools for Transaction
- Automated Fee Reminders

Library Management

Hostel Management

Certificate Management

Exams Management

Communication Management

## +11 More Customisable Modules

# EdLMS

## For Digital Teaching assignments, quizzes, and performance tracking

Empower your classrooms with our advanced LMS — organize lessons, quizzes, and assignments, create courses in advance, and track student progress in real time.

Dynamic section creation

Simplified Course publishing

Flexible resource integration

Pre-Class Course preparation

edtech 360

Analytics & progress tracking

## Smart Features

## Actions Teachers can take

### Create & Publish Courses
Easily design & upload courses with videos, quizzes, assignments, and resources.

### Track Student Progress
Monitor individual student performance, grades, and engagement in real-time.

### Provide Personalized Feedback
Offer tailored feedback on assignments and assessments to support student growth.

### Communicate with Students
Send announcements, notifications, and messages directly to students for effective communication.

## Steps Students can Follow

### Access Study Materials
View and download video lectures, PDFs, PPTs, and other resources shared by teachers

### Take Quizzes & Tests
Participate in interactive quizzes, assignments, and exams.

### Submit Assignments
Upload completed assignments directly to the platform for teacher review.

### Learn at their Own Pace
Revisit lessons and materials anytime for personalized, flexible learning from anywhere using their smart phone, tablet, or computer.

**and many more customisable features...**

# K-12 Translating Complexity into Clarity

Animated lessons, quizzes, and performance tracking for smarter classrooms

Our K-12 digital content uses 2D/3D animations to simplify learning, align with curriculum, and make lessons engaging and structured.

## Engaging 5500+ videos

Access 5,500+ expertly crafted concept videos for engaging learning and delivering measurable academic outcomes.

## Extensive practice repository

Unlock deeper subject knowledge through 500,000+ expertly curated questions for effective, focused practice

## Performance tracking

Track student performance with real-time analytics, detailed reports, and insights for continuous academic improvement.

## Assessment

Simplify assessments with powerful tools to create static and adaptive tests tailored to individual learning needs.

Make everyday teaching more powerful and engaging with our complete K-12 solution

**Curriculum-Aligned content**
for all classes & subjects

**Interactive Quizzes**
to reinforce learning

**Performance Tracking tools**
for real-time insights
